High and Medium Temperature Applications
(-10°F (-23.3°C) Space Temperatures and Above)

Air and Electric Defrost

Electrical Power: 115/1/60

NOMENCLATURE

FEATURES

- Attractive low silhouette allows maximum usage of refrigerated space.
- Lightweight cabinet made of smooth aluminum and corrosion proof hardware.
- Protective coating on all models.
- Generously sized coils provide balance with available condensing units and compressors.
- Rear air discharge reduces door sweating.
- Motors thermally protected and life lubricated.
- Quick-connect moisture-proof wiring harness.
- Light molded plastic fan blades ensure low noise level and optimum air circulation.
- Internally equalized expansion valve mounts inside of cabinet.
- Removable drain pan with self-retained fasteners.
- Knockouts for electrical connections conveniently located in cabinet.
- Opening at the back for refrigeration connections.
- Durable high density electric heaters for a fast and complete coil defrosting. (LK models only)
- Defrost termination and fan delay thermostat mounted and wired inside of cabinet. (LK Models only)
- Electrical junction box with terminal plate. (LK models only)
- R-134a, R-404A, R-507, R-22, R407A, R407B, R407C.
